About Piscine SPLASH! Asia

Piscine SPLASH! Asia is the result of the association of two reputed pool and spa show organizers sharing the same strategy: offering the international pool and spa industry the opportunity to develop export markets and building strong connections with international big players and buyers.

Piscine Global (international leader show with 1000 brands gathered every two years) and SPLASH! (award winning trade show in Australia and New Zealand for pool and spa professionals) have merged their respective expertise in order to provide the Asian market with the most important show for the professional pool and spa market. Respectively started in 1991 and 1998, Piscine Global and SPLASH! share a true international knowledge of the pool and spa industry and the same criteria for quality events.
